

The Newport Mercury.

JOHN P. SANBORN, Editor and Proprietor
SATURDAY, MAY 10, 1883.

President Arthur intends to take a trip across the continent to the Pacific coast accompanied by a portion of his Cabinet this summer.

Wilson the counsel for Brady, one of the Star Route conspirators, concluded his six days' argument for his client Wednesday, to the manifest relief of court and jury.

It is said that the break between President Arthur and Ex-Lord-Ross, of New York, is so wide that it cannot be healed. Arthur ought to rejoice at that.

A Texas office seeker tried to bribe Secretary Folger's messenger to overhear what the Secretary had to say to a Texas Congressman in regard to an office holder for that State.

J. Proctor Knott has been nominated as the Democratic candidate for Governor of Kentucky. That is a State where a Democratic nomination is equivalent to an election.

Bishop Peck of the Methodist Episcopal church, died at his residence in Syracuse, N. Y., Thursday, aged 73 years. He was one of the ablest and best known divines in that denomination.

Colonel Hunt of the 5th U. S. Artillery will be retired September 14th next; Colonel Getty of the 4th Artillery will be retired October 24; General Sherman will be retired February 8th, 1884, and General Hancock February 14, 1885.

General Newton has been elected President of the Society of the Army of the Potomac by 38 majority over Gen. Grant. It seems that people are bound not to let the ex-commander-in-chief, again wear the title of President.

Cooking's influence in National politics can now be ranked as a cipher, and when connected with the fortunes of any other person it will have the same effect as the cipher placed to the left of any figure. It decreases the persons chances ten fold.

The Kentucky jury acquitted Congressman Thompson who murdered Davis, the alleged seducer of Thompson's wife. Davis' guilt or innocence was not made clear at the trial, yet the populace applauded the acquittal of his murderer. Kentucky justice must be a queer institution.

President Arthur is manifesting more and more a disposition to strike out for himself, and leave the politicians to care for themselves. He has made several important appointments on his own responsibility and they have universally been good ones. Let him keep on in this way and he will be his own successor in 1884.

The Nashua Telegraph man speaks like an oracle when he says that the community which buys at home is the thrifty, growing and intelligent community. Spending money at home not only lubricates the channels of trade, but it so enriches the community that the surplus overflows into new channels and makes advancement inevitable. Of course more or less money will go abroad, but to give the preference to the foreign trade, for the hundred necessities of subsistence and raiment, is to extract the life juices from the tree that gives it growth, foliage and beauty. If one wishes to reduce his own city to an unenterprising and shriveled condition he has only to spend every dollar that he has to spend away from home. That will kill a place a little sooner than a plague or a conflagration. It is the only safe and loyal rule to spend your money where you get it.

A Famous Doorkeeper.

When Jackson was President, Jimmy O'Neill, the Irish doorkeeper of the White House, was a marked character. He had his foibles, which often offended the fastidiousness of the President's nephew and secretary, Maj. Donelson, who caused his dismissal on an average about once a week. But, on appealing to the higher court, the verdict was always reversed by the general. Once, however, Jimmy was guilty of some flagrant offence, and being summoned before the President himself, was thus addressed: "Jimmy, I have borne with you for years in spite of all complaints, but this goes beyond my endurance." "And do you believe the story?" asked Jimmy. "Certainly; I have just heard it from two senators," replied the general. "Faith!" retorted Jimmy, "If I believed all that 20 senators say about you, it's little I'd think you was fit to be President." "Dabaw, Jimmy!" concluded the President, "clear out and go to your duty, but be more careful in the future. Jimmy not only retained his place to the close of Jackson's presidential term, but accompanied him back to the Hermitage, and was with him to the day of his death.

Steamboat Disaster.

Steamer Granite State, of the Hartford Transportation company, was burned yesterday morning, at Goodspeed's Landing, thirty miles below Hartford. Twenty passengers were saved and five were lost. The engineer stuck to his post and came nearly losing his life. Nearly all the cargo, including nine horses, was thrown overboard and many barrels of kerosene poured overboard. The loss on the steamer is \$60,000, and the insurance is \$40,000. The loss on the cargo is heavy.

General News.

The fair of the New England Agricultural Society is to be held this year in Manchester, N. H.

A movement is on foot in the British house of commons, among the moderate liberals and radicals, to secure female suffrage. Many are pledged to vote for such a bill.

In the Southern States at the present time there are 190 cotton factories in operation or in process of construction. Formerly cotton goods made in this country were manufactured almost exclusively at the North.

A new counterfeit of the five-dollar gold coin has made its appearance. It purports to be a coin of the United States struck at New Orleans in 1843. It is heavily plated, and is 493 grains light.

During the month of April over 10,000 new emigrants landed on the line of the Northern Pacific Railroad Company, 4310 making their homes in Minnesota, 4070 in Dakota and 1083 in Montana.

The Brooklyn Bridge Opening.

The programme of exercises is now completed for the opening of the Brooklyn Bridge. The exercises will begin at 2 p.m. There will be music, prayer by the Rt. Rev. Bishop Littlejohn, presentation address by William C. Kinsley, acceptance address from Mayor Low of Brooklyn, and Mayor Edson of New York, and orations from Abraham S. Hewitt and Rev. Dr. R. S. Storrs. The marshal for the day will be Major General James Jordan. President Arthur of the United States, Governor Cleveland of New York, and other invited guests will be escorted to the bridge from the Fifth Avenue Hotel by the Seventh Regiment.

The Situation in Virginia.

A gentleman well informed as to political affairs in Virginia says that there is no special concealment as to Mahone's purpose with respect to the next Presidential election. His purpose is to nominate Readjuster Presidential Electors, leaving the ticket headless as to Presidential candidates, with the view of having the votes of the Readjuster Electors counted in Congress, where they will do the most good. In other words, the Readjuster programme is said to be to play the cards to win and to elect, if possible, a set of unpledged Electors who shall cast the State of Virginia for the Presidential candidate who, according to the Mahone view, will be of the most service to the State of Virginia.

Great Wheat Prospects in the Red River Valley.

The Fargo Argus publishes a three-column report of the wheat prospects in Northern Dakota and the Red River Valley, which shows that the increased acreage is estimated at 25 per cent., and that there is an increase in the yield of 10 per cent., per acre; the latter statement being based upon the fact that this is the best season in the Red River Valley since 1870. The weather and conditions could not be more favorable for the crops.

Aaron Burr's brace of duelling pistols, from one of which was fired the ball that killed Alexander Hamilton, belong to a citizen of Louisville, Ky., to whom they came as a legacy. The former owner bought them from the murderer seventy years ago, for \$500. The history of the murderous weapons is blood-stained, they have been used on many "Golds of honor," and with fatal effect in at least eleven cases.

Mr. Henry Grosjean, French Commissioner of Agriculture to the United States, who has been in this country for the past two years, considers the Northwest no place for French emigrants, but thinks California the greatest State for them, on account of its climate. He prophesies a great future for California wine, and thinks we cheat ourselves by using a foreign label on our good wines.

Jeff Davis is said to be failing very fast of late. His hair is very white, and he has the appearance of a feeble man, bent old man. His wife, however, is a fat, hale, hearty lady, who watches over him as she would a child. When out driving she handles the ribbons, while he sits with drooping head, scarcely noticing anything unless his attention is called to it.

Reports from 300 counties in Wisconsin, Dakota, Minnesota, Northern Iowa, Northern Nebraska and Northern Illinois, show that the outlook for spring wheat is favorable; more so than for a number of years, with a material increase in the acreage sown.

An important suit has been commenced in the United States Circuit Court, in Albany, against the directors of the defunct First National Bank, in behalf of the creditors for amounts lost during Lee's presidency said to amount to \$600,000.

Burglars effected an entrance into the Catholic Church at Ashland, Pa., the other night, and carried off the altar decorations and other articles valued at over \$1,000. Among the articles taken was a gold chalice valued at \$500.

No more women will be received as students at the Baltimore Medical College, which has just graduated four young women.

Daniel Curley, the second of the Phoenix Park murderers was hanged yesterday.

Society Notes.

Mrs. Paron Stevens writes from England, says the Tribune, that Mr. Harry Stevens and Miss Jones will be married at Newport in July, thus disproving the report that the engagement was dissolved by mutual consent. Mr. Perry Belmont and Miss Marjorie Langdon will be married in June. Mr. Belmont has bought Admiral Stanley's house at Washington. This young lady has had a short and brilliant career as an unmarried belle, but she may be as fortunate as her future mother-in-law and remain a beauty and a belle all her life.

Among the distinguished arrivals in this country has been that of Sir Stafford Northcote, who came over, doubtless, to attend the wedding in June of his son, Mr. Oliver Northcote, and Miss Fish. Sir Stafford Northcote made a favorable impression when here in 1874, as one of the "high jinks," and has not been here since. His features, as presented by Mr. Punch, are, however, familiar to Americans. Mr. and Mrs. Chas. G. Francis and Mr. "Johnnie" Balfour have also arrived in their yacht from the Isle of Wight.

Mr. and Mrs. Lawrence of England are visiting Mr. and Mrs. James W. Gerard in Greenwich park. Mrs. Lawrence is a granddaughter of the late J. W. Gerard; Mr. Lawrence is a son of Lord Lawrence.

Society is promised a "Society Souvenir" in the shape of a crushed strawberry volume, which will contain a record of all the fashionable weddings, balls, teas and receptions of this gay winter, including, also, a history of the gaiety of Brooklyn. Such volumes are not uncommon in London, being often compiled from the court circular; but this is said to be the first adventure of the sort in New York.

Election is one week from next Tuesday. The boys probably are aware of that fact.

Who Can Sell Medicines?

As there seems to be some doubt in the minds of many people as to the law in regard to the sale of drugs and medicines, we publish below sections 1 and 7 of Chapter 131, of the Public Statutes of Rhode Island, which seems to be very clear on that point:

SECTION 1. No person, unless a registered pharmacist or registered assistant pharmacist, or unless acting as an agent under the immediate supervision of a registered pharmacist or a registered assistant pharmacist, within the meaning of this chapter, shall retail, compound or dispense medicines or poisons, except as hereinafter provided.

SEC. 7. Every person, not a registered pharmacist, who shall keep open shop for the retailing and dispensing of medicines and poisons, or who shall take, use or exhibit the title of registered pharmacist, and every person who shall violate any of the provisions of this chapter, shall, upon the first conviction, be fined fifty dollars and, upon the second and every subsequent conviction, shall be fined one hundred dollars; and all fines recovered shall accrue, one half thereof to the use of the complainant, provided, however, that in towns or parts of towns where there is no registered pharmacist within three miles, any person may sell the usual domestic medicines put up by a registered pharmacist and marked with his label; such person procuring annually a certificate from the state board of pharmacy therefor, and paying one dollar for such certificate.

Revival of the Hippodrome Sports of Ancient Greece and Rome.

The wealthy and famous circus manager, Mr. Adam Forepaugh, has made the experiment of reviving the hippodrome and chariot races of ancient Rome, in connection with his colossal tented exhibition, which is being exhibited in London and elsewhere. The revival of the classical reminiscences they awaken, are all the associations connected with these illustrious sports, to the periodical recurrence of which the whole civilized world looked with an intensity of expectation that absorbed every other thought and pursuit. Public and private business was then forgotten, the forest was suspended, a universal truce was proclaimed by sea and land, that all might travel in safety to Olympia, and regard nothing but the paramount, the supreme object of attention, the hippodrome races and games. And all this has passed away like a dream. Olympia is no more; its idol temples, the colossal statue of Jupiter, the sacred grove with its myriads of statues of gods, kings and heroes, in brass, marble and iron, have crumbled into dust, and become so effectually mingled with the earth, that the site which they embellished can be no longer recognized. Nay, the very delirious themselves in whose honor these games and chariot races were instituted, and who had received the homage of the pagan world since the infancy of time, have fallen into utter oblivion, to be revived now, after a lapse of nearly thirty centuries, for the amusement of us who are living in the age of steam, lightning, the telephone, and all the modern marvels of this Christian age.

The Manager, Forepaugh, whose colossal Colosseum of ancient Rome, hippodrome, etc., is in exhibit at Newport on the 12th of June, will present in his mammoth pavilion, upon a half-mile race track, in all their ancient magnificence, the scenes of the ancient Roman and Grecian Hippodrome chariot races, and trained wild beasts.

ANNOUNCEMENT.

In consequence of competition in transportation, the celebrated GLENDOWER FURNITURE now comes within the reach of all, costing no more than the best goods of other makers. The Providence FURNITURE Co. are sole agents for Rhode Island, and now have a fine display in their show windows and salerooms.

Four persons were killed and twenty wounded near Lisbon, Wednesday, by explosion of fireworks.

The Government Chemist Analyzes two of the Leading Baking Powders, and what he finds them made of.

I have examined samples of "Cleveland's Superior Baking Powder" and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar
Bicarbonate of Soda
Flour

Available carbonic acid gas 12.62 per cent. equivalent to 116.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar
Bicarbonate of Soda
Carbonate of Ammonia
Tartaric Acid
Starch

Available carbonic acid gas 12.40 per cent. equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent. equivalent to 10.4 cubic inches per oz. of Powder.
Note.—The Tartaric Acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonium.
E. G. LOVE, Ph. D.
NEW YORK, Jan'y 17th, 1881.

The above shows conclusively that "Cleveland's Superior" is a strictly pure Cream of Tartar Baking Powder. It has also been analyzed by Professor Johnson of Yale College; Dr. Geuth of the University of Pennsylvania; President Morton of the Stevens Institute; Wm. M. Halphen, Ph. D., Analyst for the Chemical Trade of New York, and other eminent chemists, all of whom pronounce it absolutely pure and healthful.

Beautiful Hands.

In Paris the care of fingers is a trade. Olive Logan says that she visited a manicure's rooms out of curiosity and found them crowded with men and women awaiting their turn. The dress and bearing of all present indicated their position, and in almost every case it was one of social importance. After a tedious waiting Olive's turn came, and she seated herself by the manicure's little table, upon which were scattered the tools of his trade. These were scissors and knives of a shape peculiarly devised for the trimming of the nails, files, nail-cleaners, a small basin of rose water with a lot of soap near it, a tiny towel of thin muslin, a little manure and various polishing powders and sweet-smelling unguents in the form of ruby-colored pomades. Newport ladies may enjoy the luxury of having their hands treated in the most skillful manner by Madame Githere of New York, at her parlors, No. 132 Boulevard Avenue.

Every nervous person should try Carter's LITTLE LIVER PILLS. They are made especially for nervous and dyspeptic men and women, and are just the medicine needed by all persons who have lost their appetite, or who fail to get proper strength from their food. Cases of weak stomach, indigestion, dyspepsia, nervous and sick headache, etc., readily yield to the use of the Little Liver Pills, particularly if combined with Carter's LITTLE LIVER PILLS. In vials at 25 cents. Sold by J. E. GORF, agent, 210 Thames-st.

NEWS OF THE WEEK.

From all Parts of the World.

One of the Pontiac Murders. Hung. Joe Brady, convicted of participation in the murder of Lord Frederick Cavendish and Mr. Burke on the 8th of last May, was hanged in Dublin at eight o'clock Monday morning. \$300,000 fine.

The Jackson Iron Company's furnace factory was burned Sunday with a loss of three hundred thousand dollars.

Railroad Accident in Great Britain. LONDON, May 14.—The mail train from Glasgow collided with a train from Carlisle Monday night. Seven persons were killed and several others injured.

Murdered by His Wife. On Saturday George Butler (colored) was discovered murdered in the street at Powder Springs, Ga. His wife was found standing over him with a bloody knife in her hand.

The Fatal Ending of a Family Feud. A party of eight men rode up to the house of Vaughn Hilton, near Jeffersonville, Ky., Sunday morning and fired on him, killing him instantly. It is supposed they were friends of the Bennett family, which has a feud with the Hiltons.

A Steamer Burned. The iron steamship *Mississippi*, owned by the Oregon Improvement Company, was burned at the wharf Sunday morning, with 1,100 tons of coal. The fire spread to the coal sheds on shore. The chief engineer and one man was killed.

Whipped His Wife to Death. CHICAGO, May 15.—Thomas Walsh, who whipped his wife to death with a leather strap, and who pleaded guilty, was sentenced by Judge Barnum, this afternoon, to thirty-five years in the penitentiary. Walsh's crime is described as one of the most brutal ever recorded in Court.

A Bankrupt Arkansas City. LITTLE ROCK, May 15.—A special from Helena, Ark., to the *Gazette* says the creditors of that city have agreed to accept a settlement at fifty cents on the dollar in twenty year bonds at 4 per cent. interest for five years and 6 per cent. interest for the remainder. The total debt is over half a million dollars and the taxable value is \$900,000.

Destruction by Lightning. NEW YORK, May 15.—A terrific thunder storm passed over Jamaica L. I., last night. At Springfield the residence of Mrs. Scannan Frederick was almost entirely demolished by lightning. The building is split in two and the roof torn to pieces. Mrs. Frederick and her daughter were thrown to the floor senseless, but soon recovered. Portions of the building were found 500 yards from the house. At Porter's meadow the barn of Cornelius Van Winkle was struck by lightning and completely destroyed with its contents, a team of horses and three cows.

Another Terrible Cyclone. STURGEON, Mich., May 14.—A cyclone struck this place from the south-east at 3:30 this afternoon, passing through the outskirts of the town. The storm swept away everything in its path, which was a half a mile in width. A farmer, living two miles southeast of here, sought shelter with his three children in a barn, which was carried away, and all four of them were killed. The cyclone was accompanied by the heaviest hail and rain and the most vivid lightning ever known here.

A Big Land Slide. ST. LOUIS, Mo., May 14.—A land slide occurred last night three miles west of here on the Chicago, Milwaukee and St. Paul Railway. Six hundred feet of track went into the Missouri River and disappeared entirely. The huge bluff, towering above the track, is sinking down and will cause an impassable barrier. The land was still settling at last accounts, the river having undermined it. A dark, funnel-shaped cloud passed over it, destroying dwellings, unroofing buildings and carrying away fences. Several persons were injured. The Malloy-Bennett Lumber—A Verdict of \$2500.

NEW YORK, May 16.—In the second trial of action of James Francis Malloy against James Gordon Bennett for libel, in charging plaintiff in the New York Herald with incendiarism in Edgefield, S. C., before Judge Shipman in the United States circuit court, the jury to-day gave plaintiff a verdict of \$2500. On the first trial Malloy got a verdict of \$20,000, but the case was appealed and a new trial ordered.

A Baptist Minister Convicted of Murder. DALLAS, Tex., May 16.—At Canton, yesterday, a verdict of murder in the first degree and life sentence in prison was rendered against Rev. Henry Smith, a Baptist minister, for killing Deputy Sheriff Day, of Henderson county, three years ago, in a difficulty over the arrest of Smith's brother for cattle stealing.

Fitz Harris Found Guilty. DUBLIN, May 16.—The trial of Fitz Harris, the cab driver, as an accessory after the fact to the murder of Lord Frederick Cavendish and Mr. Burke, was concluded this morning. The jury returned a verdict of guilty against him, and he was sentenced to penal servitude for life.

Yale defeated Harvard, Saturday, at base ball.

Farm, Garden and Household.

Charcoal and Lime for Fowls.

These two articles play a very important part in the management of fowls, whether bred in a fancier's yard or on a farm. Charcoal should be liberally fed, for no one thing is more conducive to health than this. It should be broken in small lumps and put where the fowls can get at it, and they will eat it with great relish. We have seen it fed to pigs, with the very best results; and those which were treated to it were never troubled with disease or sickness, while neighboring ones were. This helps to prove its value not only for swine, but for fowls. Where the birds are kept in confinement, continue a contemporary, it is a very good plan to keep a small trough in a sheltered place, full of small bits of fresh charcoal, and the fowls will soon learn to help themselves. The value of lime in the form of whitewash, is well known, and those who use it liberally are the ones who keep their flocks healthy and cleanly. To render whitewash more effective in dislodging, driving away, or destroying lice and other parasitic substances, the addition of a little carbolic acid is invaluable, for vermin. Air-slaked lime should be occasionally scattered over the floor of the chicken house, to remove unpleasant and unhealthy odors, while a little of it should be scattered around the yards and runs. For materials for egg-shells, oyster-shell lime is the best for the purpose.—[Farm and Home.

Grade Jerseys.

In breeding grade Jerseys, a pure-bred Jersey bull is used upon common cows. Now, if this Jersey bull is from a large butter-yielding dam, grandam, great grandam, etc., his grade Jersey heifer calves will be likely to be a great improvement on their dams, even if these are considered good butter-yielding, common cows. The writer of this has bred ten such grade Jersey heifers, and found their average product of butter to be 1 pound of butter from 16 1-2 pounds of milk, while the average of the dams was 25 pounds of milk to 1 pound of butter. Here was a gain of 34 per cent. on the first cross. And we found these grade heifers much more uniform than we expected. They ranged from 14 1-2 pounds to 18 1-2 pounds of milk to 1 of butter.—[National Live-Stock Journal, Chicago.

Creamery Butter.

The reason why creamery butter is better than the ordinary farm or dairy article, is that at the factory there is enough to do to keep one or more persons employed all the time, and they are always on hand to perform each operation at the right time. They always control the temperature, and every operation can be done most advantageously. One reason why family butter cannot be made as good as that at the factory or dairy is that there is not enough milk together. With one or two cows two or three days must elapse between the churning, and in hot weather the cream cannot, under ordinary circumstances, be kept good for this length of time, and if cream is allowed to become over-ripe, the butter cannot have a good flavor.—[Farm and Home.

The Poultry House.

For the floor of the poultry house, the best plan is to get it quite level and then slant it to the front, just to cause a slight fall in case of wishing to wash it out at any time. Then put on a coating of cement and sand, when quite dry fill in two inches of dry earth that has been sifted. As the droppings fall on this they are easily raked off and the ammonia is absorbed. It is a great point to have dry runs for all poultry, and the birds seem to appreciate the dry dust for ridding themselves of vermin. If young chicks are kept upon dry earth they will stand cold in the most singular manner, but they soon succumb if they get into the damp

The reckless destruction of forests for pecuniary gain is deplorable. Thousands of acres on hills and mountains are yearly made barren, not to mention the loss of the reproduction.—[Vibiana.

There is no doubt that the kidneys have been proved to be the source of Bright's disease. The most important thing

Valuable Stock Receipts.

CURE FOR HEAVES.—Asafetida pulverized, 1 ounce; camphor gum, pulverized, 1-2 ounce; mix and divide into four powders; feed one every night for a week.

DRY ROT.—The best remedy for this trouble is to keep the animal standing on a clean floor and occasionally remove all decayed horn, using great care not to injure the vital parts of the foot. Frequent applications of tar will then be all that is required.

MANGE TREAT.—After a vigorous scrubbing with a coarse brush, wash the horse well with castile soap and soft water, and dry carefully. As soon as thoroughly dried apply an ointment made of 4 ounces of sulphur, 10 ounces of lard, and 1-2 ounce carbolic acid, well mixed.

HARDENING OF THE SKIN.—Frequently results from pressure of the harness and from cutting the integuments and sub-cuticular tissues with the ends of the shafts. Make a mixture of 1 ounce of acetic acid, 1 ounce of pulverized carborundum and 5 ounces of water. After a lowering the mixture to stand two weeks, filter it through linen, add 1 ounce spirits of wine and apply with a sponge.

LOP HORNS.—If the horn lops, put a brass knob on the end of the horn which is bruised, and a pulley above the head and one over the back of the calf; put a cord through both pulleys and fasten to the horn, putting a weight of three or four pounds on the back end of the cord, according to the size of the animal. Oil the horn near the end, which will soften it, and keep it out. In a little while he will have it where he wants it. After the horn is straight, there will be a ridge left; take a rasp, file it down and sand-paper it afterward.

Crochet Shawl.

First make a chain that will go around the neck quite loose; then make two meshes in first slit and one in next and two in next until you get just half-way; then make four chains and proceed as before until the end; go around six times the same way; then make two meshes and two chains clear around; then twice around plain; then another row of holes as before; when you get to the center fill in every other line with 3 meshes and proceed as before, until you have twenty rows of holes. Then take the color you wish for the border and work one inch around plain; then make four meshes in one stitch and then lasten together with the hook to the first in wrong side. Do that in every other stitch until you have twenty rows of that; then go around twenty times plain and then make a row of holes around for the fringe; the holes are to be two chains between each mesh, the worsted to be cut ten inches long and four strands tied in every hole.

This is a beautiful shawl with a raised border. If made of Germantown worsted you want five skeins for shawl and three for border. Make fringe of both colors; they are beautiful.

Handsome Sofa Pillow.

The pillow is square, and one corner of the satin cover is left unfastened; it is lined with pale green satin, and is turned down on the right side (fill the point is at the center of the cushion; fasten it there with a pink bow lined with green. The corner, which is the upper right hand corner, having been left unfastened, is now covered with pale blue satin on which is embroidered a pretty rose or bouquet of flowers. Another way is to cover one corner with old gold satin ornamented with painting, then cover the remaining portion with alternate stripes of bright ribbon and black velvet. Have the stripes the same width, and work the edges of the velvet with fancy stitches in bright embroidery silks.

Chair or Sofa Back.

For a chair or sofa back take a square or oblong piece of cream-colored linen monie cloth; on this work in outline stitch a bouquet of flowers or a picture of any kind; at each side of the cloth pull out threads for about two inches, leaving a little space outside, and enough also to make a narrow hem. Catch the threads together at intervals, and run in a bright ribbon of the exact width of the space left; fringe out the ends of the ribbon and of the monie cloth.

Making Bread.

It is a trite expression that poor bread-makers are often the cause of poor bread than the poorness of the flour. Of course we allude to bread made in families. A lady who has a reputation as a bread-maker par excellence, furnishes the following, which we publish for the benefit of millers and those of their customers who complain of poor flour.

One two-cent cake of compressed yeast will raise flour enough for four medium sized loaves of bread. Crumble the yeast into a bowl, being very careful not to handle it too much, sprinkle on it two teaspoonsful of sugar, and pour over it a pint of lukewarm water. In the course of ten minutes the yeast will have risen to the top. Then stir it until it is all dissolved. Make a hole in the centre of the flour, and pour in the yeast. Stir it with the flour until it is a thick batter. Sprinkle salt around the edges where the flour is heaped up, taking care to keep the salt away from the sponge, as it is apt to give it a slightly bitter taste. Set the pan in a warm place. The most important thing

is to keep it free from draughts. A draught of cold air from an open door or window has spoiled many a batch of bread.

If the temperature of the kitchen is warm and even, say 70° F., the bread will be all right if it is raised away from the fire; other wise, it should be kept moderately warm in an hour the sponge will be light and feathery. Knead the bread with slightly warmed water. Never use entirely cold water, but always have it warmer in winter than in summer. Good kneading is essential to good bread. If the dough is kept in the right temperature, free from draughts, it will have raised again in from two and a half to three hours. Then it can be moulded into loaves, when it should be again well kneaded, so as to get all the air out of it, and put into the pans. After standing for another hour it will be ready for the oven. From forty minutes to an hour will bake it, according to the size of the loaves and the heat of the oven. The best way is to have the oven sufficiently hot to brown the loaves when they have been in twenty minutes. Then cool the oven somewhat and let them finish baking slowly.—[American Miller.

Strawberry Receipts.

STRAWBERRY CREAM.—Cap and quart of ripe strawberries and sprinkle them with half a pound of pulverized sugar and set them aside for an hour or two, then stir them into two quarts of sweetened cream; beat all well together, put in a freezer and freeze.

STRAWBERRY CAKE.—Five eggs, three cups of sugar, one of butter, one of milk, four of flour, two teaspoonsful of yeast-powder, beat the eggs separately, cream the sugar and butter, add other ingredients, stirring in the whites of the eggs last. Bake on jelly pans for jelly cake. Cap and split in half two boxes of large strawberries, spread each layer of cake with them and sprinkle with pulverized sugar; place them layer upon layer. Serve with or without cream.

STRAWBERRY SHORTCAKE.—One quart of sour cream, full half-teaspoon of soda, flour to make a soft dough; roll it about an inch thick; bake on pie pans in a quick oven; when done split them open; butter each piece and cover with berries and sugar; they may be piled one on top the other or not, just as you like. Serve with cream.

TO CAN STRAWBERRIES.—Take the largest and finest berries, cap them, and to each pound of berries take a quarter of a pound of white sugar. Strew the sugar over the berries and let them stand for three or four hours, then put them in a preserving kettle, and just as soon as they come to a boil and are heated thoroughly, put them in tin cans, having first heated the cans in boiling water; seal immediately. It takes two boxes of berries for one can.

STRAWBERRY FLOAT.—Cap and sugar one pint of berries and set them aside for one hour, then mash them through a coarser; beat the whites of six eggs to a stiff froth and stir in the berries; whip all until the spoon will stand erect in them; serve with rich cream.

DELICATE CAKE.—Whites of eight eggs, one cup of butter, two cups of sugar, three and a half cups of sifted flour, one small cup of sweet milk or cream, half teaspoonful of ore in tartar mixed with the flour and eggs alternately; put it in a greased cake pan and take three quarters of an hour.

STRAWBERRY JAM.—Cap the berries and mash them completely; weigh them and to every pound of berries take one of white sugar; mix together thoroughly, and boil for twenty or thirty minutes.

STRAWBERRY PRESERVE.—Take the finest berries, cap and weigh them, allowing one pound of white sugar to every pound of berries. Take the berries, crush and squeeze them, and strain through a jelly bag; to each pint of juice allow one pound of white sugar; put all the sugar in a preserving kettle and pour the juice over it; boil and skim; then drop the berries in and boil until soft; lift them carefully out on a dish and let them cool; continue to boil the syrup for ten minutes; put the berries in again and boil until clear; take them out and boil the syrup five or ten minutes longer; then put the fruit in jars and pour the syrup over them.

JOHNNY-CAKE.—One egg, a cupful each of sour and sweet milk, a tablespoonful molasses or sugar, a teaspoonful salt, the same of soda; stir quite soft with Indian meal and add a half-cupful of flour. A spoonful of cream or other shortening may be added.

PILES. Piles are frequently preceded by a course of weight in the bowels and lower part of the abdomen, causing the patient to suppose he has some affection of the kidneys or neighboring organs. At times, symptoms of indigestion are present. Early medical treatment is of the utmost importance. The use of the stomachic, purgative, producing a very disagreeable result, particularly at night after getting warm in bed, is a very common attendant. Blood, bleeding and itching. Piles yield at once to the application of Dr. Bosanquet's Pile Remedy, which acts directly upon the parts affected, absorbing the tumor, relieving the intense itching, and affording a permanent cure, where all other remedies have failed. Do not delay until the pain is intense and produce permanent disability, but get it cured. Price, 50 cents. Sent prepaid on receipt of price. Address, The Dr. Bosanquet Medicine Co., 101 N. 3rd St., Philadelphia. Gro. agent, and H. P. Downing, Jr.

DARBY'S PROPHYLACTIC FLUID.

A Household Article for Universal Family Use.

BRADY'S MALARIA. For Malaria, Typhoid Fever, Diphtheria, Scurvy, Rheumatism, and all Contagious Diseases. Persons suffering from the Malaria should use it freely. It has never been known to spread where the fluid was used. Yellow Fever has been cured with it after black vomit had taken place. The worst cases of Diphtheria yield to it.

SMALL-POX PREVENTED. A mother of a family was taken with Small-Pox. I used the Fluid, the patient was not ill, and was about her usual affairs in three weeks, and no others had it. — J. W. PARKER, Philadelphia.

Diphtheria Provoked. The physician here used Darby's Fluid very successfully in the treatment of Diphtheria. — A. S. STANLEY, Greensboro, Ala.

Scarlet Fever Cured. I used the Fluid during the epidemic of Scarlet Fever with decided advantage. It is indispensable to the sick. — W. C. SAMPSON, Erie, Pa.

Yanderbilt University, Nashville, Tenn. I testify to the most excellent qualities of Prof. Darby's Prophylactic Fluid. As a disinfectant and deodorant it is both theoretically and practically superior to any preparation with which I am acquainted. — J. W. LUTHER, Prof. Chemistry.

Darby's Fluid is Recommended by: Hon. Alexander H. Stephens, of Georgia; Rev. C. V. Davis, D.D., Church of the Stangers, N.Y.; Rev. J. H. Taylor, Prof. University, S.C.; Rev. A. J. Taylor, Prof. Mercer University; Rev. Geo. F. Parker, Bishop M. E. Church, INDIVIDUALS TO EVERY HOME.

WHEAT BITTERS. Great Liquid Food FOR BLOOD, BRAIN AND NERVES.

IT IS A SOUTHERN MEDICINE, HIGH IN PHOSPHORUS AND NOT A CLEANSING, ALCOHOLIC LIQUOR. It is highly recommended by the medical profession and has a POSITIVE TONIC EFFECT. ACCEPTABLE AND RELIABLE, as it does not stimulate the brain or irritate the system and leave the patient in a debilitated condition. It is a tonic that is necessary to the brain, to the nerves and to the system. It is a tonic that is necessary to the brain, to the nerves and to the system. It is a tonic that is necessary to the brain, to the nerves and to the system.

HEALTH IS WEALTH!

DR. E. C. WEST'S NERVE AND BRAIN TREATMENT. A Great Cause of Human Misery

Is the Loss of

MANHOOD

A Lecture on the Nature, Treatment and Radical Cure of Sexual Weakness, or Spermatism, induced by Self-Abuse, Involuntary Emission, Impotence, Nervous Debility, and Impaired Health, in Marriage, Maternity, and Infancy. By ROBERT J. CULVERWELL, M.D., Author of the "Green Pills," &c.

The world-renowned author, in this admirable Lecture, clearly proves from his own experience that the worst consequences of Self-Abuse may be effectually removed without dangerous surgical operations, medicine, instruments, or any other means, pointing out a mode of cure at once certain and effectual, which secures absolute recovery, in whatever condition may be, may cure himself cheaply, privately and radically.

This Lecture will prove a boon to thousands and thousands.

Send under seal, in a plain envelope, to any address, on receipt of the cash, or two postage stamps. Address

That Tired Feeling.

"THERE is no fault to be found with the feeling of which I have been complaining on the approach of spring. The depression and languor of the system attending this season are insupportable. The lassitude, languor and debility peculiar to this condition are wholly overcome by taking Hood's Sarsaparilla. It purifies, vitalizes and enriches the blood, invigorates the nervous system, and imparts new life and energy to all the functions of the body."

A lady tells us "the first bottle has done my daughter a great deal of good; her food does not distress her now, nor does she suffer from that tiresome tired feeling which she had before taking Hood's Sarsaparilla." A second bottle effected a cure.

Hood's Sarsaparilla cured my son of pimples on his face.—ALEX. ANDERSON, Lowell, Mass.

"We think Hood's Sarsaparilla one of the best medicines we ever sold for purifying the blood and for spring debility, and do not hesitate to give it our unqualified recommendation." Geo. C. Goodwin & Co., Wholesale Druggists, Boston.

SUPERIOR ON FAIR TRIAL.

AS A VITALIZER.

I regard Hood's Sarsaparilla as the most reliable and best spring medicine. I had tried many others without good results, and consequently commenced all alike, until I gave Hood's Sarsaparilla a fair trial, when I was convinced it was superior to all others. Every spring I take three bottles of Hood's Sarsaparilla, and know nothing of that terrible languor so prevalent at this season of the year. I have just finished my first bottle for 1888, and already feel much improved. Mrs. J. M. CARTER, Boston.

Hood's Sarsaparilla

Sold by druggists—\$1.00; six bottles for \$5.00. Prepared only by C. I. HOOD & CO., Apothecaries, Lowell, Mass.

A Good Friend to the Chinese.

SAN FRANCISCO.—Consul A. F. Bos, of the Chinese Consulate Office, expresses himself as being in saying that he, as well as his family, have suffered severely from rheumatism and neuralgia, and that medicines were used in vain. At last Dr. J. C. Williams' Pink Pills, which effected immediate cures in every case. The Consul remarks the Pills as the greatest pain reliever remedy in existence.

Prince Frederick William, the son of the crown prince of Germany, has returned from his visit to Vienna.

Dr. C. W. Benson's Coler and Chamomile Pills are prepared expressly to cure and will cure Headache of all kinds, Neuralgia, Nervousness and Dyspepsia. Proved and endorsed by physicians.

The League winners, Saturday, were Cleveland, Chicago, Boston and Detroit.

The action of Carter's Little Liver Pills is pleasant, mild and natural. They gently stimulate the liver, and regulate the bowels, but do not purge. They are sure to please. Sold by J. E. GORFF, agent, 210 Thirteenth-st.

Archbishop Croke has promised the pope that he will in the future conform to the attitude of Cardinal McCabe with regard to Irish affairs.

The pope has expressed his decided opposition to the coming of the Irish clergy in promoting the Parnell fund.

The Potato Crop.

Almost every farmer now uses Phosphate in the hill or scattered along the drill for the crop, even when he has plenty of other manure. A small quantity from two hundred to four hundred pounds per acre, according to the condition of soil and thickness of planting of a good phosphate will pay a large profit in increased yield, and the potatoes will be much sweeter and more mealy, and much more liable to rot than when only barnyard manure is used. Farmers say they can grow a good and profitable crop of potatoes by using Dr. J. C. Williams' Pink Pills, even on poor land.

By the shutting down of the Bay View Rolling Mills, at Milwaukee, the lot of iron made there will be thrown out of work.

CONSUMPTION.

It is said that some people die annually in the United States alone from this disease. In some sections of the country one death in every three is from consumption. This can be avoided by the use of Dr. J. C. Williams' Pink Pills, which effect a cure in every case. It cures about an ordinary cough or cold, and other symptoms of throat and lung affections. It is said to be the best remedy for consumption. Dr. J. C. Williams' Pink Pills will relieve an ordinary cough or cold. It does not try to cure a cough like other remedies, and leave the disease behind it, but acts directly on the throat and bronchial tubes, removing all the phlegm and morbid matter that accumulates in the throat and lungs. It always kills irritation, and renders the voice clear and distinct. Trial size free. Sold by J. E. GORFF, agent, 210 Thirteenth-st., and B. F. Downing, Jr., Broadway.

If you think that nobody cares for you in this cold world, just try to learn to play the fiddle in a popular neighborhood.

Happy and Hungry.

For over five years I was a constant sufferer with the most terrible and annoying disease, dyspepsia. I was paying out hundreds of dollars, the only medicine I found that would do me any good was Sulphur Bitters. Six bottles cured me. Now I can eat well and am happy and hungry.—Editor.

The Chesapeake and Ohio canal was originally by George Washington.

No female should attempt the toil and drudgery of the wash, when it can be obviated by the use of James Pyle's unrivaled Hairbrush.

Maine sold \$125,000 worth of chewing gum last year.

"Dr. Benson's Skin Care eradicated my pimples. They never to break out continually." Steve T. Harrison, Rochester, N. Y. \$1. at druggists.

One Harrit, in Attleboro, seriously assaulted a man and his wife in a quarrel, Saturday.

NEWPORT COUNTY NEWS.

PORTSMOUTH.

Town Business.—The regular monthly meeting of the town council and court of probate was held at the town hall on Monday. Present, Wm. Horton, 2nd, J. Henry Stoddard, R. D. Hall, Samuel Cory, Henry Anthony and Philip B. Chase, Clerk.

In Town Council.—A delegation was present from Prudence Island, asking that some action be taken in regard to establishing a needed driveway on said island. After hearing the parties, Hon. Edward T. DuBois, J. Henry Stoddard and Henry C. Anthony were appointed a committee, to go to Prudence Island and examine the premises, and report at the next regular session their judgment as to the propriety of establishing a driveway from the main driveway that crosses said island from East to West, Southerly through land of Daniel H. Arnold, Edward Farnham and wife, heirs of Harriet A. Chase, and heirs of Charles Hunter (or either of them) and if they think it proper, or necessary that such driveway be laid out, then, where it shall be located. The petition of Solomon Gardner praying for permit to locate hay-scales in the public highway in front of Eureka Hall, in Newtown village, was granted, and Lorenzo D. Tallman was appointed a committee to attend to the location of the same.

A petition from Solomon Gardner praying for liberty to erect a shed for storage purposes on the town's landing at the foot of Black Point lane was referred to the next meeting. The committee appointed last month to ascertain something of the cost, etc., of a building for the housing of the town's road implements, and to report at this meeting, not being ready to make a final report, was continued another month.

Philip B. Chase was appointed a committee to have the tax books printed together with the town treasurer's report and a list of the principal town officers.

The following bills were presented and allowed with an order on the town treasurer, viz., of John P. Sandborn for printing license ballots, \$2.76; of Frederick W. Tallman for registering dogs and warning jurors, \$23.90; of assessors of taxes ordered in town meeting, April 10th, 1888, \$26; of Lorenzo D. Tallman as commissioner at Stone Bridge, \$10; of Philip B. Chase, town clerk for past six months, \$38.52; of Overseer of the Poor for board of Dabornal Jordan, \$12; for assistance to Benj. Macomber, \$39; for assistance to Oliver W. Barker, \$10; Town Council Fees, \$2.60.

PROBATE BUSINESS.—The first account of Wm. Henry Gifford, Executor of the last will and testament of Wm. Hall Gifford, deceased, was allowed and ordered recorded.

DEATH AND FUNERAL.—Mr. Richard Field died quite suddenly on Monday last. His health had not been very good for some time, but it was not supposed his end was so near.

The funeral services were held at his late residence near the Glen on Thursday afternoon and were conducted by the Rev. Gould Anthony of Westport, Mass.

The town council of Portsmouth some time since appointed a commission consisting of Amner B. Cory, Stephen T. Sherman and Jonathan A. Sisson, to widen, straighten and lay out the Ferry Neck Road. The committee will proceed at an early day to attend to their duties.

TIVERTON.

The electors of Tiverton are considering the question of calling a special town meeting to reconsider some matters adopted at former meetings. One of these is the vote of the town at the last April meeting whereby the sum of \$8,000 was appropriated to erect a new town asylum. This sum, in the opinion of many, is much more than is needed to procure such buildings and accommodations as will perfectly satisfy the needs of the poor.

Another question is the purchase of a tract of land for a cemetery, which purchase was made last year, and by which the town has acquired about sixteen acres of land in the northern part of the town, which has been platted by the town surveyor, and one or more lots sold. The former vote to purchase was almost unanimous; but now, after the matter had been settled, as every one thought, a considerable number of the electors are desirous of having the town sell the land on the best terms possible, and oblige prospective purchasers of cemetery lots to buy private individuals who already have a site in the southern part of the town. If a meeting is called pretty lively times may be expected, as it will be the "North end versus the south end" and the most votes win.

Rev. H. T. Arnold of Wells has declined the call to the pastorate of the Congregational Church in Tiverton, R. I.

NEW ENGLAND ITEMS.

RHODE ISLAND.

A young man supposed to be John Prior, of Gilm, N. H., shot himself in the left breast, on the core promenade, in Providence, Monday evening, and is now at the Rhode Island hospital. A love affair is thought to be the incentive to the rash deed.

The Hon. Augustus O. Bourne, governor-elect of Rhode Island, accompanied by Councilman William A. Harris and party, arrived back in Providence from his European tour at 7:35 o'clock Monday evening. There was no formal reception at the depot, but both gentlemen were warmly greeted by many friends.

The Hon. Jonathan Chase, representative in congress, who has been sojourning in the south for several weeks for the benefit of his health, returned home on Friday evening.

The Herkimer-street Baptist Church, Brooklyn, N. Y., has extended a call to Rev. John Evans of the Western (R. I.) Baptist Church.

Mr. Benjamin N. Lapham, Senator

NEW ENGLAND ITEMS.

CONNECTICUT.

Mrs. Julia Parker, one of the Smith sisters, whose farm at Glastonbury, Conn., with the excellent Alderney cows thereon, has made them famous, the cows having several times been sold for non-payment of taxes, in now ninety-one years old, and is in trouble with a cousin whom she had come from Vermont to help handle her farm. Horace Smith, her cousin, claims that she agreed to give him the place in return for his labors, and now, the old lady having become dissatisfied with him, and begun cutting down trees, he has procured an injunction restraining her from digging in the garden or milking the cows. This curious injunction will be heard next Tuesday.

"Father" Hawley, father of Senator Hawley of Hartford, Conn., was carried to the Hartford Insane Retreat Thursday. For some time he has shown unmistakable evidence of insanity, and it was deemed best for the safety of his family and friends to put him under greater restraint.

Charles Naggs was caught in the shafting at the buckle shop in Waterbury, Conn., Monday morning. He had his left arm torn off and suffered a compound fracture of the right arm. His injuries will probably prove fatal.

MASSACHUSETTS.

The whaling bark Attleboro, of New Bedford, went ashore in a gale on the island of Mucha, March 21, and was totally lost. Only a few casks and some stores were saved. The crew were all saved. The vessel and outfit were valued at \$25,000, and were insured for \$725 in the New York and Boston offices. She was built at Bath, Me., in 1877, was 179 tons, rated 11 for 11 years, and was owned by Capt. William Lewis and others in New Bedford and Attleboro. It was her second voyage.

A correspondent of the Nantucket Journal says that Schooner Lilla Ernestine, under her present ownership, is not to be placed upon the Boston route, nor to be run in opposition to the Old Colony railroad. The vessel is for sale. Capt. Snow of the W. O. Nelsford has so much freight from Boston already engaged, that he must charter a vessel to help bring it, and he has offered Capt. Ray one cargo and possibly two, and the latter may accept.

It was reported Friday afternoon that Hon. W. W. Crapo lay dangerously ill at the Providence Hospital, Washington. Mr. Crapo has been at the hospital for the past three weeks. He went there to submit to a delicate operation, which was successfully performed and from the effects of which he has entirely recovered. Mr. Crapo drove out Friday, and he will return to his hotel on Monday.

The Nantucket Inquirer and Mirror says that every cottage at Siasconset has been let for the coming season, and the demand is still strong.

Rents are so high in Attleboro that it is cheaper to live in Taunton or Providence and ride in and out daily on the cars.

Harry Garfield of Williams College, eldest son of the late President Garfield, is to be among the speakers at the Decoration Day exercises at North Adams, Mass.

Hon. Julius H. Seelye and Hon. A. A. Rumney are named by Republicans in connection with the Governorship.

NEW HAMPSHIRE.

Herbert L. Rogers, of the firm of Rogers, Smith & Co., furniture dealers, Portsmouth, has disappeared, and his present whereabouts are unknown. He raised considerable money previous to his departure in the name of the firm, and his old debts are in addition to this amount. The total liabilities are supposed to be about \$5000. The stock in the store is valued at about the same amount.

Cokmel Frank H. Pierce, a well-known lawyer of Hillsborough, N. H., nephew and heir of ex-President Pierce, has been committed to the asylum for the insane at Concord, N. H.

VERMONT.

Julia Burroughs, aged 34 years, of Brimfield, Vt., committed suicide at Montpelier, in that State, on Sunday, by drowning. She took a dose of morphine, but as that did not prove effective, plunged into the water. She left a note stating that no one was to blame, and that she had left money to pay the funeral expenses, etc. She was employed as a servant girl, and bore a good name.

MAINE.

The Bath Times tells of a lady in that city who is only about thirty years old, and in her short life she has been struck by lightning twice; has been on the train when it was attacked by robbers once; has been apparently drowned twice, abducted twice and met with numerous accidents with horses, and still she is hale and hearty. In addition to the lady's other troubles she has been nearly forced into an unwilling marriage.

The two children of Mr. Fred R. Farrington were riding in Portland in a small cart when, in turning, the cart upset. Mr. Farrington's little boy had his collar bone broken and the little girl's head received such a concussion at the base of the brain that blood flowed for some time from one ear.

Ex-Gov. Washburne, of Maine, died suddenly at Philadelphia at 1 p. m. Saturday, of paralysis around his heart. He was formerly member of Congress for many years. He belonged to the celebrated Washburne family.

SKILL IN THE WORKSHOP.—To do good work the mechanic must have good health. If long hours of confinement in close rooms have weakened his mind and his strength, let him at once, and before some organic trouble appears, take pills of Hop Bitters. His system will be renewed, his sight become clear, and the whole constitution be built up to a higher working condition.

Weekly Almanac.

TO THE NEWPORT PUBLIC.

Something for Everybody to Read.

Positively the Great European Show, now on its Nineteenth Annual Tour of America, will make its third grand and triumphant tour of New England during the months of May, June and July. It will exhibit at Newport Tuesday, June 12th.

No other great tented exhibition will visit New England this season.

This colossal combination, representing the most advanced and most successful of the world, with an invested capital of three million dollars, always the largest, has been increased in every department this season, with special reference to its presentation to the New England public. It does not now and never did depend on a name, or upon a large or small elephant, or any solitary feature for public patronage. Its unparalleled success during the past twenty years, and its reputation for public approval in the future rests upon its acknowledged superiority in all things over all other tented exhibitions that have been or are now before the public.

The Great European Show has traversed every portion of the United States and Canada, from the Atlantic to the Pacific, from the coast of Louisiana to the shores of Labrador, and the St. Lawrence People, press and pulpit everywhere commend it, and nothing in the way of a great popular tented exhibition has ever visited New England, that can compare in grandeur and magnificence to the Great European Show.

That our exhibition has already fulfilled all its advance announcements, we need not refer to its former visits here. It is coming again, and if any doubt its superiority over all other tented exhibitions, we earnestly urge such to compare the Great European Show, as it appears on the road, in the past decade, with a New Show in nearly all its various departments. None of its performers ever have been seen in New England, and most of them now make their appearance for the first time in the United States. Its trained animals are all of the rarest species. Its

combined Ancient and Modern Hippodromes, the first ever exhibited in America. Its previous successful features are all new, novel and costly. Separate tents are used for the different exhibitions, and one admission price, (the usual one) and one ticket entitles the visitor to enter all, and the daily experience of the great show are double that of an ordinary exhibition in any part of the world.

The proprietors realize the fact, that no where else in the United States is there a greater demand for magnificent, varied, intelligent public amusement, than in the New England States, with their thousands of hard working hard thinking men and women, and students and laborers, who, recognizing this fact, and also that nowhere else, on this habitable globe, can there be found so many people fully competent to decide upon the merits of any description of public amusement as here in New England, they have, in seeking the most refined and the most judicious outlet, embodied in their colossal exhibition nearly every new, novel, and most thrilling form and feature of recent popular amusements prevailing in the amphitheatres of Rome in her noblest days, and at a tremendous cost, and at the expense of many thousands of dollars, in all their grandeur and grandeur, the Charles Rivers and Classical Sports, of the Ancient Olympic Hippodrome and Stadium, and the pompous spectacles of Roman and Egyptian antiquity, now days, I know this great Amusement Fair, perfectly perfect in detail, and lavish expense, any thing hitherto attempted anywhere in the world, will be recognized by the just, generous and intelligent people, and every man and woman of New England, as every worthy of their support.

This great show is organized to meet the requirements of all classes, rich and poor, young and old, the farmer, mechanic and professional man, seeking the most refined and the most judicious outlet, and as well as the humble and lowly. And it has been the especial aim of the proprietors to permit nothing to be said, seen or done in connection with this colossal exhibition, that can possibly offend the most refined and fastidious people. Sentate tents are used in the exhibition of the Museum, Menagerie, Tamed Wild Beasts, and the Hippodrome and Circus; this is done in deference to the feelings of those who desire to visit the menagerie Menagerie and Tamed Wild Beasts, but are unable to attend exhibitions.

The great show travels by rail, owning its own superb special train, three in number. It will fulfill every promise made, and its great success is guaranteed by the fact, and proof is offered as a guarantee of its present intentions in all that relates to the entertainment, safety and civility extended to its visitors and all with whom it comes in contact. Confident of receiving the patronage of the intelligent masses of New England, the proprietors feel assured that they will be able to satisfy them to the utmost, and succeed in conducting their great show throughout the New England States without pecuniary loss, and receive the hearty approval of the intelligent masses of New England. Long Island to the banks of the St. John; from the fertile fields of Connecticut to the mountains of Maine.

Respectfully,
The Public's Obedient Servants,
ADAM FORKPAUGH, JR.,
Proprietors Great European Show.
